SKILLS

Languages

- Python
- C++
- C
- JavaScript

Frontend

- HTML
- CSS
- React.js
- Bootstrap

Backend

- Flask
- Node.js
- REST APIs

Database

- MySQL

Tools & Others

- Git
- GitHub
- Jupyter Notebook

EDUCATION

04/2025 – Present

B.Tech

Computer Science and Engineering
Ajeenkya D Y Patil University
Expected Graduation: 2028

Diploma

Computer Engineering
Ajeenkya D Y Patil University
GPA: 87.71%

X SSC

Maharashtra State Board

Don Bosco

GPA: 86.80%

WEBSITES, PORTFOLIOS, PROFILES

- github.com/Yashhsharma07

CERTIFICATES

- Retrieval Augmented Generation with LangChain - IBM
- Build an AI-Powered Document Retrieval System with IBM Granite and Docling
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional

Yashraj Sharma

PROFESSIONAL SUMMARY

Computer Science Engineering student with hands-on experience in full stack development and machine learning. Skilled in Python, C++, JavaScript, React.js, Flask, and SQL. Passionate about building efficient, user-friendly applications and solving real-world problems. Eager to learn, contribute and grow through challenging opportunities.

EXPERIENCE

Tech Master – Python Full Stack Intern

Jan 2024 – Mar 2024

- Developed full stack web applications using Python, Flask, JavaScript, and MySQL.
- Built and integrated RESTful APIs to support dynamic functionality.
- Optimized backend performance and improved API response time by ~20% through efficient query handling and code optimization.

Prodigy Infotech – Full Stack Development Intern

Mar 2024 – May 2024

- Built responsive web applications using HTML, CSS, JavaScript, and Flask.
- Enhanced UI/UX and streamlined user interactions, improving user engagement and overall experience.
- Integrated frontend with backend APIs for seamless data flow.

DevTown – Python & Machine Learning Bootcamp

Jun 2024 – Jul 2024

- Completed intensive training in Python, ML algorithms, and data workflows.
- Worked on hands-on projects including data preprocessing, model building, and evaluation using Scikit-learn and Pandas.

CodSoft – Web Development Intern

Aug 2024 – Sep 2024

- Designed and developed responsive websites using HTML, CSS, JavaScript, and Bootstrap.
- Improved website performance and usability which increased user satisfaction.
- Deployed projects and maintained code using Git and GitHub.

PROJECTS

Sales Analysis & Prediction (Machine Learning) | Python, Pandas, NumPy, Scikit-learn

- Built ML models for sales data analysis and prediction.
- Performed data analysis and visualization to extract actionable business insights.
- Deployed the model using Streamlit.

GitHub: github.com/Yashhsharma07/Sales-Analysis-Prediction

Crop Prediction System (Machine Learning) | Python, Scikit-learn

- Developed a model to recommend crops based on soil and environmental parameters.
- Applied classification algorithms to predict crop suitability.
- Evaluated model performance and achieved high prediction accuracy.

GitHub: github.com/Yashhsharma07/Crop-Prediction-System

Single-Axis Solar Tracker | Arduino, C++, LDR Sensors

- Developed an Arduino-based solar tracking system using LDR sensors.
- Improved energy efficiency by ~15-20% compared to fixed solar panels.
- Implemented real-time control through embedded programming and hardware interfacing.
