Professional Summary:

Results-driven Senior Customer Support & Quality Assurance Executive with 4+ years of experience in high-volume customer environments, specializing in complaint resolution, quality monitoring, and process improvement. Proven track record in managing escalations, conducting root cause analysis, and delivering actionable insights to enhance customer satisfaction and operational efficiency. Adept at collaborating with cross-functional teams, training agents on best practices, and consistently exceeding performance and quality targets.

Valethi Technology LLP | Nagpur, India | Senior Customer Support Executive

02/2021-09/2025

- Resolved customer complaints by identifying issues, providing effective solutions, resulting in enhanced customer satisfaction and loyalty.
- Reviewed service processes and analyzed customer interactions using quality assurance techniques to provide actionable feedback and improve team performance.
- Conducted weekly quality audits, root cause analysis, and investigations to maintain compliance with service and product standards. Utilized data analysis tools (e.g., Maestro QA, CRM platforms) to track customer service metrics, identify trends, and support continuous process improvement initiatives.
- Managed 50+ customer interactions daily, achieving a 95% quality score on monthly audits through adherence to service guidelines and best practices. Collaborated with cross-functional teams to streamline workflows and exceeded performance targets, resulting in recognition as a top-performing customer care executive.

Skills:

- Data Analysis & Interpretation:** Extracting insights from complex dataset to support decision-making and strategic planning.

- Data Visualization:** Power BI (interactive dashboards and performance insights). Power Map (Excel) 3D geographic visualization.
- Problem Solving:** Critical thinking, Analytical reasoning, Communication skills and Structured troubleshooting.

Projects:

World Cup T20 Analysis Dashboard

Fireblaze Technology Private Limited | Nagpur, India

April 2025 – May 2025

- Designed and developed an interactive Power BI dashboard to analyze team and player performance, match outcomes, toss results, and key highlights. Created data visualizations to track top run scorers, leading wicket-takers, and captaincy statistics for the tournament.
- Built overview, insights, and performance tabs to support intuitive navigation and data exploration. Enabled data-driven decision-making by providing actionable insights through clear metrics and visual storytelling.
- Integrated multiple datasets to deliver cohesive and accurate performance reports. Presented findings to stakeholders, helping them derive meaningful conclusions from complex tournament data.

Walmart Sales & Promotion Data Analysis

Fireblaze Technology Private Limited | Nagpur, India

May 2025 – June 2025

- Performed end-to-end analysis of Walmart's transactional, inventory, customer, and supply chain data to uncover key trends and actionable insights. Wrote advanced SQL queries to aggregate sales, calculate revenue, units sold, and average discount rates, supporting strategic recommendations.
- Identified the top-performing products and the high-revenue store locations through data-driven revenue-based ranking.
- Evaluated promotional campaign effectiveness by analyzing sales uplift using joins and group aggregations. Cleaned and transformed raw datasets into structured formats to enable accurate and efficient analysis.
- Created visual reports and presentations using PowerPoint to communicate findings and support data-driven decisions across teams.

Personal Finance Analytics System

Fireblaze Technology Private Limited | Nagpur, India

July 2025 – Oct 2025

- Personal Finance Analytics System is a Python-based project that Analyzes personal income and expense transactions to understand financial behavior.
- Used NumPy for efficient numerical calculations and data processing.
- Applies pandas for data cleaning, transformation, and exploratory data analysis (EDA).
- Utilizes matplotlib and seaborn to create clear and insightful visualizations.
- Generates category-wise spending and monthly net savings trends.
- Helps identify overspending areas and support better budgeting and financial planning.

Education:

Bachelor of Engineering in Computer Science. Priyadarshani Indira Gandhi College of Engineering | Nagpur, India

June-2019

Certifications: Pursuing a Professional Course in Data Science & Machine Learning.

January 2025- Present

Accomplishments: Received Star Performer Award for 2 Quarters and promoted to a QA from Senior Executive in Internal IJP.
