PROFESSIONAL SUMMARY

Detail-oriented and highly organized Computer Science undergraduate (2026) with strong analytical, communication, and operational skills. Experienced in handling data, documentation, verification processes, and project coordination through academic projects and internships. Proficient in Excel, Google Sheets, and data management with a keen eye for accuracy and compliance. Seeking an Operations Intern role to contribute to background verification, case analysis, and operational excellence while gaining hands-on industry experience.

EDUCATION

- KG Reddy College of Engineering and Technology** Hyderabad, India
B.Tech - Computer Science *Graduation Year: 2026*

SKILLS

- Operations & Verification:** Document Verification, Data Validation, Case Analysis, Record Management, Process Adherence, Quality Control
- Data Management:** Data Entry, Database Management, Data Accuracy, Information Verification, Documentation
- Tools:** MS Excel, Google Sheets, MS Word, Google Workspace, Canva
- Communication:** Verbal Communication, Email Communication, Telephone Etiquette, Client Coordination

INTERNSHIP EXPERIENCE

- Web Development Intern** Sep 2024 – Oct 2024
Bharat Intern
 - Project Execution:** Assisted in project execution, documentation, and testing activities.
 - Workflow Improvement:** Collaborated with team members to resolve issues and improve workflows.
 - Record Management:** Maintained records and ensured timely completion of assigned tasks.
 - Quality Focus:** Demonstrated strong attention to detail and quality-focused work practices.

PROJECTS

- Online Token Management System**
Developed a system to streamline customer queue management and improve operational efficiency. Reduced waiting time by 40% through process optimization and workflow management. Maintained project documentation and tested system accuracy.
- AI DNA Mutation Analysis System**
Processed and analyzed structured datasets to identify mutation patterns. Ensured data accuracy and generated meaningful insights through validation techniques.
- Mindful AI – AI-Powered Mental Health Journal**
Developed an AI-powered journaling application with backend integration. Managed data processing and supported testing and quality assurance activities.

ACHIEVEMENTS & ACTIVITIES

- Participated in coding hackathons and technical competitions.
- Successfully completed multiple AI, web development, and data-driven projects.
- Organized and coordinated college workshops and team activities.
- Developed strong presentation and communication skills through academic and project work.

CERTIFICATIONS

- IBM SkillsBuild Summer Internship Program – Artificial Intelligence.
- Generative AI – GUVI.
- Python Zero to Hero – GUVI.
- Python Programming Internship – YBI Foundation.

SOFT SKILLS

Attention to Detail • Communication • Data Accuracy • Organization • Problem Solving • Teamwork • Time Management • Adaptability
