SUMMARY

Software Engineer skilled in building scalable applications and AI-powered solutions. Proficient in React, TypeScript, Node.js, and REST APIs, with experience in real-time systems and performance optimization. Strong in developing efficient end-to-end systems with a focus on clean architecture, scalability, and problem-solving.

TECHNICAL SKILLS

AI Tools	Kilo Code CLI, Cursor, Codex CLI, Gemini CLI, Google AI Studio, Claude Code, Image & Video Generation Tools
Programming	Java, Python, JavaScript, SQL
Backend Development	Node.js, Express.js, REST APIs, JWT Authentication
Frontend	React.js, HTML5, CSS3, Tailwind CSS
Databases	MongoDB, Database Design, CRUD Operations
Core Concepts	Data Structures, OOPS, System Design Basics, API Design
Systems & Architecture	Distributed Systems Fundamentals, Client-Server Architecture, Async Processing
Tools	Git, GitHub, Postman, Vite

PROJECTS

TaskPulse AI – Full Stack Workforce Reporting Platform

[GitHub Link](#)

Developed a full-stack workforce reporting platform using Node.js, Express.js, MongoDB, and JavaScript. Implemented JWT authentication, role-based access control, and REST APIs for report management and analytics. Built interactive dashboards for real-time reporting and workflow tracking.

Betacut AI – Client-Side Image Processing Engine

[GitHub Link](#)

Built a privacy-first AI-powered web application for real-time image background removal using Transformers.js and MODNet models. Optimized browser-based inference using WebAssembly and WebGL/WebGPU for high-performance processing. Improved scalability, security, and user privacy through a fully client-side architecture.

EXPERIENCE

Java Full Stack Development Trainee

July 2025 – Jan 2026

Tap Academy

Completed intensive training in Core Java, Advanced Java, JDBC, SQL, HTML, CSS, and JavaScript with hands-on experience in full-stack web application development. Worked on REST APIs, database management, object-oriented programming, SDLC concepts, and modern software development practices through practical projects.

EDUCATION

B.Tech, Computer Science Engineering

2021 – 2025

Vindhya Institute of Technology and Science, Satna

72.2%

CERTIFICATIONS

- Java Full Stack Development – Tap Academy (2025)
- Python Full Stack Development – CRISP (2023)
