

RIDDHI PRIYA

ELECTRONICS & COMMUNICATION ENGINEER

EMAIL: riddhipriya.srra@gmail.com PHONE: +91 7970471514 LOCATION: Dhanbad, Jharkhand, India

OBJECTIVE

PROFILE

Electronics and Communication Engineering graduate with verified industrial exposure spanning locomotive systems diagnostics, precision PCB engineering processes, modern ICT implementations, and core electrical frameworks. Possesses hands-on competence in advanced system benchmarking, failure-mode isolation, component level diagnostics, and industrial safety compliance protocols. Poised to deliver immediately inside technical operations environments as a Graduate Engineer Trainee (GET), Core Electronics Engineer, or Production Systems Specialist.

EXPERIENCE

HISTORY & TRAINING

Oct 2022 —
Jan 2023

PCB Assembly Operator (NSQF Level-4)

Oceans Assessors Guild Pvt. Ltd.

- Completed comprehensive operational certification track with an exceptional Grade A evaluation standing.
- Executed end-to-end component population routines, alignment configurations, and micro-soldering procedures on multi-layer substrate architectures.
- Enforced QA/QC evaluation criteria over localized systems arrays to verify complete fidelity to strict blueprint operational maps.
- Mastered fine precision assembly protocols, schematic tracing loops, and preventative board defect mitigation strategies.

Aug 2022 —
Aug 2022

Industrial Trainee Engineering Corps

Electric Loco Shed (ELS), East Central Railway — Gomoh, JH

- Collaborated alongside senior rolling stock systems specialists during critical high-voltage component inspections and functional testing matrices.
- Observed state-space fault analysis routines, automated signal logging assessments, and line troubleshooting configurations.
- Studied high-voltage protection mechanics, structural system insulation, and overarching power routing infrastructure.
- Analyzed heavy railway industrial electrical drive protocols, high-output traction controls, and system telemetry tracking arrays.

Jun 2024 —
Jul 2024

Vocational Engineering Trainee (ICT Focus)

DesignTech, Siemens Technical Skill Development Institute — Dhanbad, JH

- Completed intensive applied engineering training cycles focusing on integrated modern ICT communication standards and advanced solid-state electronics.
- Conferred the official Certificate of Merit following outstanding technical performance appraisals and lab project defenses.
- Developed proficiency in micro-tier diagnostic tracking, circuit schematic evaluations, and integrated firmware test operations.

EDUCATION

TIMELINE

2023 — 2026

Bachelor of Technology (B.Tech.)

Electronics and Communication Engineering — Guru Gobind Singh Educational Society's Technical Campus, Bokaro

2020 — 2023

Diploma in Engineering

Electronics and Communication Engineering — Government Women's Polytechnic, Bokaro

COMPETENCIES

SKILLS MATRIX

ELECTRONICS:	Solid-State Circuits, Signal Analysis, PCB Assembly, VLSI Principles	OPERATIONS:	System Diagnostics, Hardware Troubleshooting, Quality Control
SOFTWARE:	Python Programming (Basic), Microsoft Office Suite Ecosystem		

CREDENTIALS

CERTIFICATIONS

- National Skills Qualifications Framework (NSQF) Level-4 — Certified PCB Operator
- Electronics ICT Professional Certification Accreditation
- Electronics Home Foundation Applied Systems Engineering Diploma
- Industrial Systems Operations Endorsement — East Central Railway Fleet Command
- Siemens Skill Development Center Academic Certificate of Merit

AUXILIARY

METRICS

LANGUAGES:	English (Professional), Hindi (Native)	INTERESTS:	Industrial Hardware, Applied Audio Systems
MOBILITY:	Fully Open to Relocation within India	ACTIVITIES:	Technology Tracking, Prototype Engineering
