DEEPSHIKHA

PROFILE

Motivated and detail-oriented fresher with foundational knowledge of HTML, CSS, JavaScript, and Python. Interested in building clean, user-friendly web applications and eager to learn new technologies. Looking for an entry-level opportunity where I can apply my skills, grow professionally, and contribute to the success of the organization.

PROJECTS

E-CYCLE HUB

Technologies: HTML, CSS, Java, MySQL

- Developed a web-based application to manage and recycle electronic waste efficiently.
- Implemented User, Admin, and Employee modules with role-based access control.
- Users can list e-waste items and schedule pickups through an online system.
- Admin can assign tasks to employees, track product status, and generate reports.
- Employees can verify, collect, and update recycling status of electronic items.
- Improved transparency and promoted eco-friendly e-waste management.

E-Waste Robot Prototype

Hardware Design, Team Collaboration, Sustainability Initiative

- Designed and built a robot model using recycled electronic waste components.
- Used discarded computer parts and circuit boards for structure and design.
- Focused on sustainability and reuse of e-waste.
- Gained hands-on experience in hardware assembly and teamwork.

ACHIEVEMENT

- Secured 2nd position in Leadership and Personality Development Quiz (School Level)
- Represented school and district at State level in Kho-Kho competition
