CAREER OBJECTIVE:

To grow as a professional who transforms challenges into opportunities while actively contributing to the company's technological advancement.

EDUCATION:

BE-ECE(2022-2026)

Vivekanandha College of Engineering for women

CGPA:84%

HSC(2021-2022)

P.A.Vidhya Bhavan Higher Secondary School, Khakkavadi

Percentage: 88.6%

SSLC(2019-2020)

Kamban Vidhyalaya High School, Salikkarai

Percentage: 84%

TECHNICAL SKILLS:

- C, Python, HTML, CSS, MS excel

PROJECTS:

Smart plant based Indoor air quality and monitoring system:(Mini project)

- Developed a smart IoT-enabled plant-based air pollution monitoring system powered by solar energy for sustainable indoor air quality tracking.

IOT-Based Smart Traffic Light System with Ambulance Priority: (Internship)

- This is an intelligent traffic management solution designed to reduce congestion and ensure quick passage for emergency vehicles.
- This system uses IoT sensors, RFID/GPS modules, and wireless communication to monitor real-time traffic conditions at intersections.

Intelligent IOT Based Energy Management System for Microgrids: (Major project)

- Developed an Intelligent IoT-Based Energy Management System for Microgrids to monitor and optimize real-time power generation, storage, and load consumption
- Implemented AI-based load forecasting and automated energy control strategies to improve renewable utilization, reduce peak demand, and enhance system reliability.

CERTIFICATIONS:

- Participated in a presentation at GNYAN ELECTRACOMMUNIX, Gnanamani college of technology
- Presented a paper on QEISSET, International conference at Vivekanandha College of Engineering for women

SOFT SKILLS:

- Team Work & Collaboration, Time Management, Adaptability and Flexibility

INTERNSHIP:

Completed internship on Internet of Things in Techvolt Software pvt ,Coimbatore.
