📍 2-3-346, Ramalayam veedi, PanduvaKandrika, West Godavari, A.P

EDUCATION

B.Tech (EEE) [2022–2026]S.R.K.R Engineering College(A), Bhimavaram, West Godavari Dist., A.PCGPA: 7.77

Intermediate – MPC [2020–2022]Narayana Junior College, Bhimavaram, West Godavari Dist., A.PPercentage: 78

SSC [2019–2020]Narayana (E/M) High School, Bhimavaram, West Godavari Dist., A.PPercentage: 98

SKILLS

Technical Skills:- Python language- C language- MatLab

Soft Skills:- Communication skills- Good at reasoning and mental ability- Adaptability

AREAS OF INTEREST

- Chip designing- Work as a system operator and management- Embedded systems

INTERNSHIP

AIML-DS_2024 – Online Mode – IIDT (APSCHE)- Learned core AI and machine learning principles, programming languages (like Python), and tools for building and evaluating models.- Gained experience in analyzing data, applying statistical methods, and using insights to solve real-world problems.

IoT and Embedded Systems- Designed and programmed IoT-based prototypes using Arduino and NodeMCU platforms.- Worked extensively on sensor integration, wireless communication protocols, and embedded system applications.- Developed projects focused on automation, data monitoring, and control systems.

PROJECTS

Diamond Price Prediction using AI & ML- Developed a model using machine learning to predict diamond prices based on carat, cut, color, and clarity.- Helped improve transparency for consumers and investors by providing future price insights.

Smart Real-Time Digital Clock & Temperature Display using Arduino- Designed an Arduino-based system integrating RTC and DHT sensors to display real-time data.- Implemented I2C communication and tested on Wokwi.- Demonstrated sensor interfacing and embedded system skills.

WORKSHOPS ATTENDED

- Arduino based Robo, Buddha Technologies [2024]

- PCB Designing [2023]
