

CHETAN GAUTAM

(+91)6307384689 | chetangautam090@gmail.com | LinkedIn: [chetan-gautam-690](#) | GitHub: [ChetanGautam090](#)

PROFILE SUMMARY

Innovative AI & Machine Learning practitioner with a strong foundation in Deep Learning, Computer Vision, and Generative AI. Proven hands-on experience in developing predictive models, OCR applications, and automated AI image pipelines using CNNs, LSTMs, and diffusion models. Equipped with recent certifications in Large Language Models (LLMs) and Data Analytics, seeking to leverage technical expertise to build and orchestrate scalable, impactful AI solutions.

SKILLS

- **Core AI/ML:** Artificial Intelligence, Machine Learning, Deep Learning (CNN, LSTM), Neural Networks
- **GenAI Frameworks:** Generative AI, Large Language Models (LLMs)
- **Programming:** Python, Java, C, C++
- **Web & Tools:** HTML, CSS, JavaScript, MS Office, LaTeX, Git
- **Core Skills:** Data Structures & Algorithms, Theory of Computation

WORK EXPERIENCE

Machine Learning Intern, CodSoft

Oct 2024

- Developed and implemented various machine learning models to solve practical data challenges.
- Engineered a deep learning solution for image caption generation utilizing CNNs and LSTMs.
- Built predictive models for spam email detection, house price prediction, and customer churn prediction.

PROJECTS

Automatic Image Description Generation

- Designed an Artificial Intelligence and Deep Learning pipeline using CNN and LSTM networks to automatically generate accurate, context-aware textual descriptions for images.
- Implemented text preprocessing (tokenization, padding) and evaluated model performance using standard NLP metrics.

AI Image Generation & Consistency Pipeline (Personal Project)

- Developed workflows for generating highly consistent AI visual media and portraits using diffusion models and targeted prompt engineering.
- Maintained precise facial consistency and aesthetic control across digital collages utilizing reference imagery and custom conditioning scales.

Handwritten Character Recognition (HCR)

- Built a computer vision application focused on Optical Character Recognition (OCR) to automatically process and segment images of handwritten text.
- Transformed unstructured image data into machine-readable formats, improving text extraction accuracy.

EDUCATION

Rajkiya Engineering College, Azamgarh

Nov 2022 - June 2026

Bachelor of Technology, Department of Information Technology | CGPA: 7.26

Margaret Leask Memorial English School, Jhansi

July 2021

Class XII (ISC) | Council for the Indian School Certificate Examinations, New Delhi | Percentage: 71.17%

Margaret Leask Memorial English School, Jhansi

May 2019

Class X (ICSE) | Council for the Indian School Certificate Examinations, New Delhi | Percentage: 60.00%

CERTIFICATIONS

- GenAI Powered Data Analytics Job Simulation | TATA (Issued by Forage) | June 2026
- Introduction to Large Language Models | Google Cloud (Coursera) | May 2026
- Introduction to Responsible AI | Google Cloud (Coursera) | May 2026
- Data Analytics Job Simulation | Deloitte (Issued by Forage) | October 2025

ACADEMIC ACHIEVEMENTS & EXTRA-CURRICULAR

- Completed One Week International Workshop on Entrepreneurship Development Cell.
- Instructor at Science and Technology Club, REC Azamgarh.
- Member of Robotics Club, REC Azamgarh.
- Member of Entrepreneurship Development Cell.
